Professional Summary

MCA graduate focused on Python backend development, cloud technologies, and machine learning. Skilled in Django, REST APIs, React.js, Node.js, SQL, and scalable web application development.

Education

Master of Computer Applications (MCA) Brindavan College, Bangalore	CGPA: 8.71
Bachelor of Science (B.Sc. PMCs) Jyoti Nivas College, Bangalore	66%

Technical Skills

Languages: Python, JavaScript, SQL
Backend: Django, Django REST Framework, Node.js, Express.js, REST APIs
Frontend: React.js, HTML, CSS, JavaScript
Databases: PostgreSQL, MySQL, MongoDB
Cloud & DevOps: AWS, Docker, Git, GitHub, Linux, CI/CD
AI/ML: NumPy, Pandas, Scikit-learn
Tools: VS Code, Postman

Experience

ITkraftz – Software Product Owner Intern	Jul 2025 – May 2026
- Developed a Crypto Wallet Tracker for monitoring cryptocurrency transactions and wallet balances. - Built REST APIs using Node.js and Express.js for blockchain data integration. - Designed responsive React.js dashboards for real-time transaction tracking.	
Edunet Foundation – Training Program	Dec 2024 – Mar 2025
- Completed project-based training on software development and emerging technologies. - Strengthened programming, debugging, and problem-solving skills. - Collaborated on technical assignments and real-world development tasks.	

Projects

AI Real Estate Price Prediction (MERN Stack)
- Developed an AI-based real estate platform using React.js, Node.js, Express.js, and MongoDB. - Implemented machine learning models to predict property prices based on location and market trends. - Built responsive user interfaces and REST APIs for managing property listings and predictions.
Crypto Wallet Tracker
- Developed a cryptocurrency wallet tracking application using React.js and Node.js. - Integrated Blockchain APIs to fetch wallet balances and transaction history. - Designed dashboards for monitoring Bitcoin and Ethereum wallet activities.
AI Study Planner
- Developed an AI-powered study planner using React.js, Django, and SQL databases. - Implemented secure backend APIs for study schedule and task management. - Created analytics dashboards to track learning progress and productivity.

Leadership & Certifications

- Joint Secretary of Mathematics Club; organized technical and coding events.
- Class Representative coordinating communication between students and faculty.
- Full Stack Web Development (MERN Stack), Python Programming, Machine Learning, Data Analysis (Excel, Power BI, Tableau).
